

HEALTHY  
EARLY  
CHILDHOOD  
SERVICES Achievement  
Program

We're creating a healthier  
early childhood service

KRCCC is currently working towards accreditation under the Healthy Early Childhood Services Achievement Program. Supported by the Victorian Government and delivered by Cancer Council Victoria, this framework focuses on six health areas including healthy eating, physical activity, and mental health and wellbeing.

Exciting news!

Our service has been awarded Victorian Government recognition for the following health priority areas:

Member for 23 yrs

**Knaith Road Child Care Centre Inc.**  
RINGWOOD EAST

As a learning community we want to do everything we can to demonstrate a positive and proactive approach to the management of sun protection and ensure children develop sun-safe habits from an early age so they can safely enjoy the great outdoors throughout their lifetime.

This means we have successfully demonstrated how we are meeting best practices for these health areas. We are very proud of this recognition and are particularly proud to have been a SunSmart member since 1998!

The Achievement Program is a free health and wellbeing initiative for early childhood services. More information about the program can be found [here](#).

The next priority health area we will be focusing on is:

**Mental Health & Wellbeing**
